GEOSTAR G5 and GEOSTAR G7 – Faster, lighter, smarter

Wedge welding redefined: Leister's new GEOSTAR welders change the civil engineering landscape. This mid-size, lightweight welder boasts a robust, cast aluminum frame for quality welding of geomembranes. The GEOSTAR also features a unique digital display with all key weld parameters: heat, speed, pressure and supply voltage. The new design makes field servicing a cinch—wedge can be removed and replaced in under a minute. Additional features

Wedge welders

GEOSTAR G5/G7

1		<p>Maintenance friendly: The well-thought-out construction enables easy access to mechanical parts for cleaning or service.</p>
2		<p>eDrive: Integrated display of weld pressure, travel speed, wedge temperature and supply voltage enables constant monitoring of key weld parameters during the work process.</p>
3		<p>Ergonomic: The newly developed clamping mechanism enables simple, one-hand operation to engage rollers and begin welding.</p>
4		<p>Shifting gears: The GEOSTAR is equipped with a two-gear transmission that can be modified in accordance with work conditions in just a few steps.</p>
5		<p>Weld pressure measurement: Constant measurement and display of weld pressure.</p>
6		<p>Spacious: Plenty of room for easy loading of material into the machine to accelerate the weld-starting process.</p>
7		<p>The new wedge geometry: The new geometry supports the natural flow of geomembranes over the wedge. An intelligent interface makes it possible to replace the wedge in less than one minute!</p>

include: easy loading of material, natural flow of material through the machine and innovative handle ergonomics for easy carry and rest positions. The GEOSTAR is available in two performance classes: the standard GEOSTAR G5 and extended-wedge GEOSTAR G7.

The GEOSTAR welds nearly 240 m without difficulty in a single pass during a field test (South Africa)..

Wedge welders

GEOSTAR G5/G7

- Welding speed up to 12 m/min
- At 16.4 kg (G5) and 17.7 kg (G7) ~20-50% lighter than comparable machines
- High heating capacity / heating power
- Digital display of weld pressure
- Wedge replacement in less than one minute
- Integrated voltage display
- Adjustable chassis height
